

Grappa Curvée Riserva

Thanks to the selection of an excellent grappa and the ageing in tonneaux used for our wine Il Barbiglione, it becomes a complex and refined nectar.

ORGANOLEPTIC CHARACTERISTICS

In the glass it is an intense amber colour tending to golden yellow with reddish shades, very inviting. Its scent is gentle and elegant, warm and fragrant, with notes of ripe grapes, plum, apricot, cherry. There are also hints of vanilla, coffee, cocoa, pistachio and walnut.

In the mouth it is refined and delicate, harmonious, vinous, soft with pleasant shades of spices, walnut husk, almonds and honey. Great aromatic richness and very long flavour persistence.
